kabos

A POLISH COSMETICS
MANUFACTURER

ABOUT OUR BRAND

Kabos is a Polish manufacturer of professional cosmetics that has operated on the market since 2005. The brand portfolio features a wide range of products for nail styling and care, tailored to the needs of both professionals and individual clients. Kabos offers, among others: Gelike gel polish, classic polish with a natural composition, dip powders, gels and all the accessories necessary to perform a gel manicure. The brand offer also includes cosmetics for nail care: beautifully scented body lotions, peel-off products – perfect for creating a small SPA at home.

CLIENTS WITH ALLERGIES

TRUST US

GELIKE

GEL POLISH

Gel polish is the perfect combination of traditional polish and light-curing components. These products are perfect for individuals with sensitive or problematic nails, as well as allergies. Gelize is a truly light gel polish that maintains its durability and shine. The mild formula of Gelize gel polish does not irritate the nails and is a good solution for those who have previously suffered from allergies caused by gel polish.

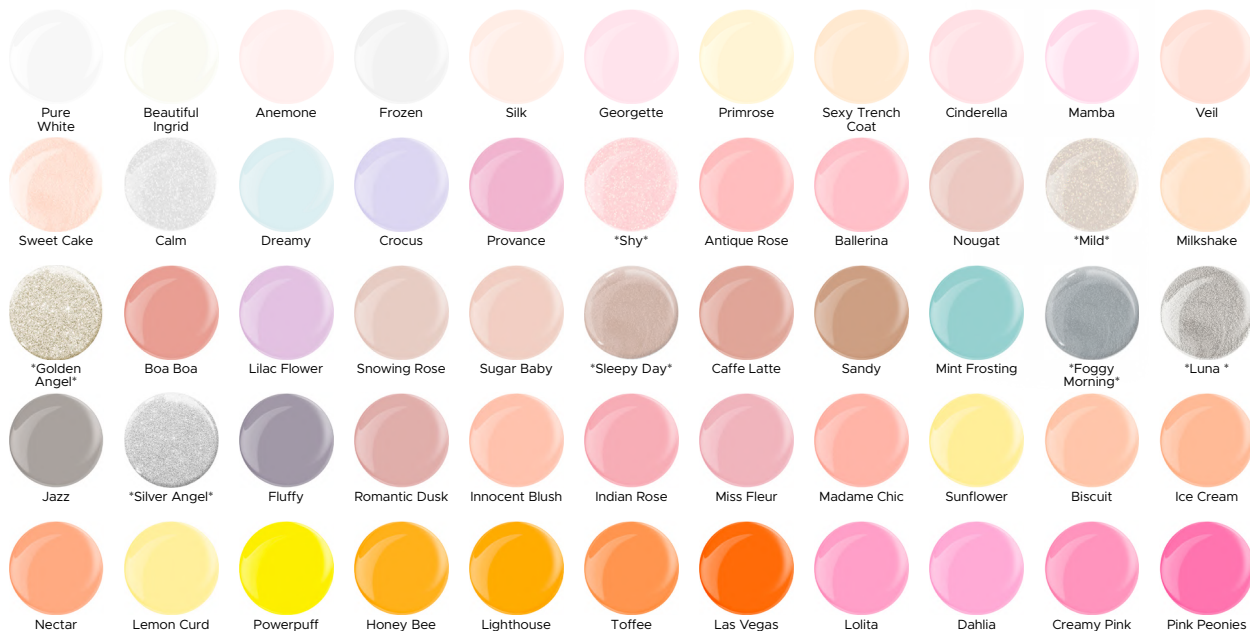

GEL POLISH

NON-INVASIVE MANICURE

Learn more about their unique features:

- perfect for sensitive nails and clients with allergies;
- a non-invasive formula;
- a consistency similar to that of classic polish;
- a fine brush for easy application;
- cured with a UV or LED lamp;
- durability and perfect shine that lasts up to 3 weeks;
- a wide range of colours;
- 3-step application (base coat, colour, top coat).

5 ml

BASE COATS

GELIKE BASE COAT

A gel polish for the manicure base. It creates a strong adhesive bond between the polish and the nail, ensuring long-lasting wear and exceptional durability.

UV 60 sec./LED 30 sec.

8 ml and 5 ml

GELIKE PROTEIN BASE COAT

Nourishing hybrid base with the addition of proteins.

- hema free,
- long-lasting formula,
- with the addition of proteins.

UV 60 sek./LED 30 sec.

Anna Hill

GELIKE TOP COAT

A surface gel polish, essential to complete the manicure. It provides a perfect shine and durability, deepens the colour and protects the manicure against all kinds of mechanical damage.

UV 180 sec./LED 90 sec.

8 ml and 5 ml

GELIKE MATT FINISH TOP COAT

Gelike Top Matt Finish Top Coat is a top that gives a perfectly matte effect to hybrid styling.

UV 120 sec./LED 90 sec.

8 ml

GELIKE TOP NO WIPE

Flexible, universal product for hybrid styling, UV gel and acrylic gel with mirror effect up to 4 weeks.

UV 180 sek./LED 90 sek.

8 ml

RUBBER BASE

Rubber Building Cover Base is a colorful, medium-thick cover base with the consistency and characteristics of a hybrid, also having the properties of a soft and building gel. Thanks to it, hybrid manicure:

- it is durable,
- works perfectly with the natural nail,
- provides beautiful color (rubber bases are available in 4 colors)!

The rubber base is dedicated to every nail plate, even weak and brittle ones - it is very durable, creating an excellent basis for nail regeneration and growth, and protects against mechanical injuries. Thanks to its high flexibility, it does not crack or chip. With the rubber base, you can build up the nail plate up to 2-3 mm in length!

BUILDING GELS

PERFECT SHAPE

Thanks to the new-generation building gels, lengthening the nails has never been simpler. Learn more about their unique features:

- they can be used directly on the nail surface and form for nail extension;
- self-levelling, which aids in achieving the final shape;
- acid-free;
- a medium-thick consistency that ensures no spillovers on the cuticles;
- 180 sec. UV/ 90 sec. LED.

BASE BUILD GEL

- increases the adhesion of the mass to the nail plate,
- extends the durability of styling,
- very efficient - a thin layer of the product is enough.

UV – 120s / LED – 30sec

8 ml

MAGIC PRIMER ACID FREE

- protects the styling against air pockets,
- delicate,
- does not evaporate from the nail plate,
- convenient bottle,
- does not require curing in a UV / LED lamp.

8 ml

FASTGEL

The builder gel with liquid memory, easy to apply, resistant and durable styling:

- has thixotropy, i.e. liquid memory, thanks to which you can apply slowly even on a few nails before curing,
 - is so flexible that it does not expand after tightening,
 - suitable for extensions on a template and dual forms and for building a natural plate,
 - durable and resistant to damage during everyday activities,
 - does not flow onto the cuticles during application,
 - slow-leveling, thick consistency that works well with a brush,
 - easy to saw, does not require long preparation,
 - fast gel is a color in itself, so after working on the mass, we have a ready stylization or base for decorations
- 120 sec. UV/ 60 sec. UV/LED.

15 g

ACRYLIC-GELS

Product advantages:

- exceptional consistency facilitating smooth no-rush application – the product doesn't spill over the cuticles, which makes it possible to harden five nails at once;
- ease in shaping and building the nail shape – the products stays right where you want it before hardening;
- no unpleasant odour;
- no burning sensation under the lamp;
- the option to extend the nail both on the template and dual forms;
- ease in creating previously demanding styles, such as French nails;
- the possibility to create durable and damage-resistant manicures, 30 mL 2in1 Acryl-Gel combines two existing styling methods: gel and acrylic, incorporating the best of both products while eliminating any disadvantages.

30 ml

DIP POWDER MANICURE

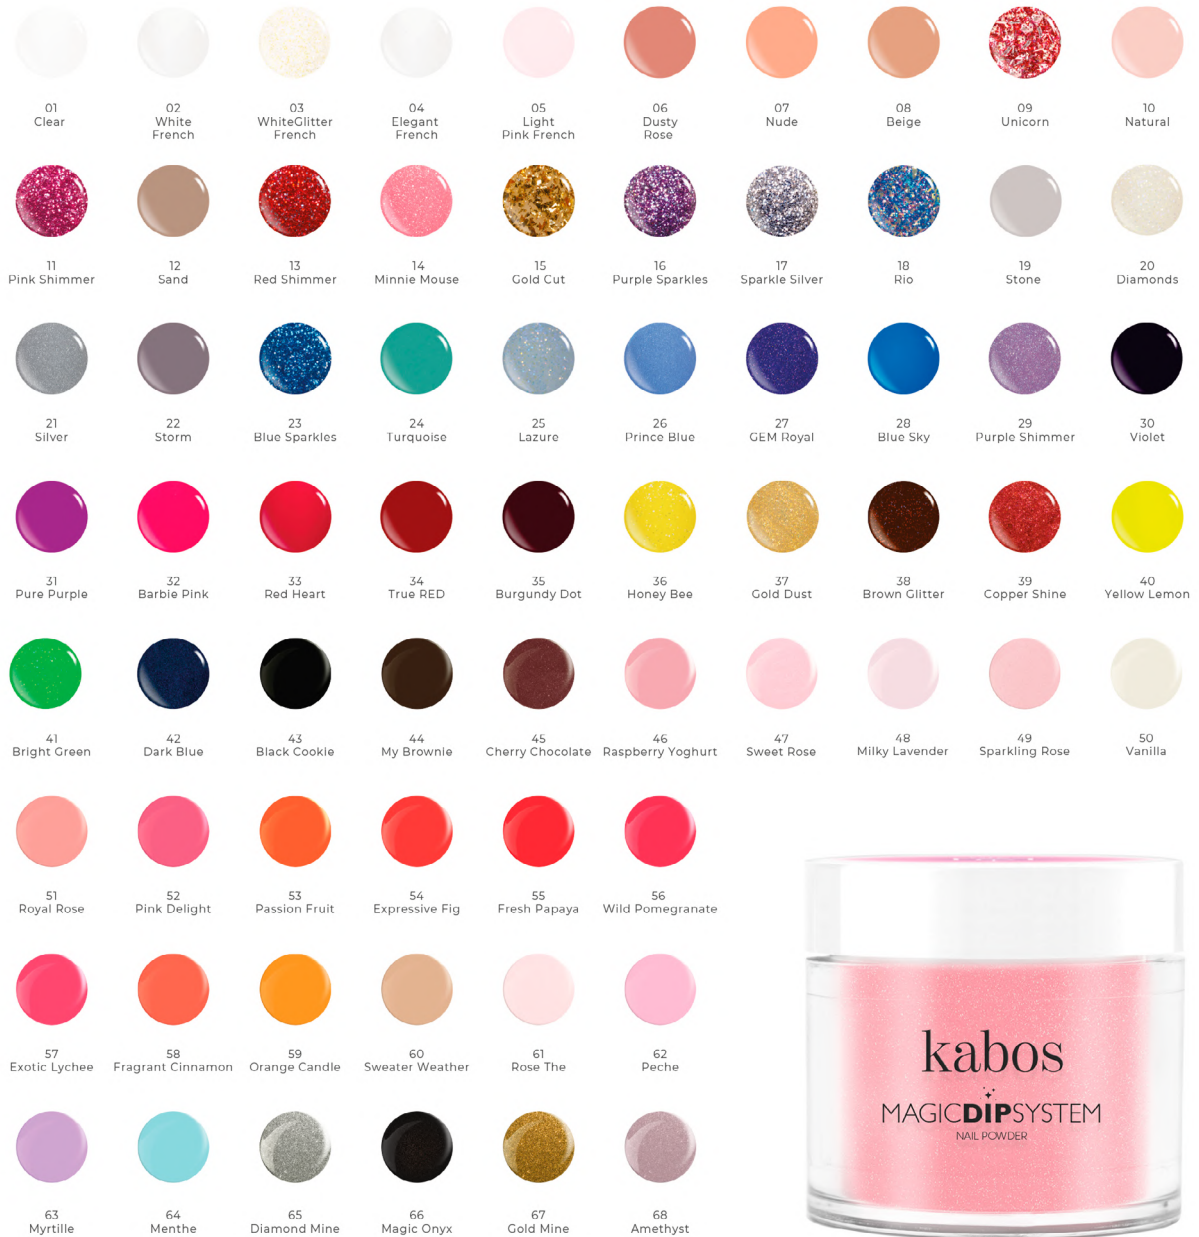

MAGIC DIP SYSTEM

Dip powder manicure is a modern way to colour and strengthen your nails. What distinguishes dip powder manicure from other methods? Above all, it ensures remarkable durability on the nail. This method does not require the use of a UV lamp. Dip powder manicure does not overload natural nails.

20 g

COLOUR PALETTE

Dip Powder Nail Set includes:

- clear basecoat dip powder;
- two colour powders (depending on the set);
- (1) Nail Prep - prepares the nail plate;
- (2) Base Gel - a powder adhesive;
- (3) Activator - bonds;
- (4) Top Gel - provides a glossy finish;
- (5) Brush Cleaner - brush cleaning solution;

Dip powder nail sets are available in 6 colour variants:

- Classic Set
- Red Set
- French Set
- Pink Set
- Nude Set
- Rose Set

NAIL PREP

NAIL PREP Nail Prep is a dip powder manicure product that quickly and effectively degreases the nails. Dip powder adheres better to a well-prepared nail. This is the first step of dip powder manicure – to apply it to the prepared nail. Activator The activator is an essential part of a dip powder manicure.

14 ml

BASE GEL

Base Gel is the base layer of a dip powder manicure and is applied underneath the dipping powder. It contains vitamin E and silicon to strengthen the natural nail plate. The base bonds with the dip powder, creating a lasting manicure. Use the base after applying Nail Prep. After applying the base, dip the nail in the powder to bond them together. Use the base before each powder application.

14 ml

ACTIVATOR

The activator is the base on which the dip powder is applied and does not require lamp curing. Before moving on to the next step, wait at least 2-3 minutes for it to take effect and to ensure the durability of the application. Apply the activator after the colour is evened out and before the top coat is applied. Afterwards, wait 3 minutes and clean the nail with a lint-free cotton pad.

14 ml

TOP GEL

Top coat for dip powder manicure. Apply over the activator once it has dried to complete the dip powder stylisation. The top coat hardens the nails, gives the stylisation the maximum gloss and protects the nail plate against chipping or breaking. Top Gel lasts on the nail surface for a long time. After application on the nail, clean the brush with a lint-free cotton pad before reinserting it into the bottle. Before applying the top coat, wait at least three minutes for the activator to dry thoroughly and wipe off the nail.

14 ml

BRUSH CLEANER

Brush Cleaner is a preparation designed for cleaning fine brushes. If you notice that the top coat brush is beginning to clump, change brushes and insert the dirty brush into the Brush Cleaner bottle, sealing it tightly. The product effectively cleans brushes and makes them ready for the next use.

In the meantime, you can use the clean brush from the Cleaner for your polish application!

14 ml

REPLACEMENT BRUSHES

Replacement brushes for TOP GEL The set includes three brushes.

KABOS SIMPLY

Simply is a line of classic nail polishes based on ingredients of natural origin.

SIMPLY is a line of classic nail polishes based on ingredients of natural origin. The „breathable“ SIMPLY formula allows oxygen and water vapor to penetrate the nail plate, keeping it in the best shape possible. The unique color palette of SIMPLY includes the colors of nature: juicy shades of red, brown, deep green, blue and delicate nude colors. Each of the colors is highly pigmented, ensuring perfect coverage and a color effect on the nail plate.

The products Kabos SIMPLY are:

- 100% Vegan,
- up to 85% natural ingredients,
- durability up to 7 days,
- 2-step application (nail polish + top, the base is integrated in the nail polish).

TOP COAT

BIO CONDITIONER Simply REGENERATION

Contains natural celery, broccoli and kale extracts as well as wheat, corn and soy proteins that moisturise and smooth the nail. This exceptional composition effectively supports the regeneration of weak and damaged nails.

10 ml

BIO CONDITIONER Simply STRENGTHENING

A nail conditioner with horsetail extract and mastic tree resin. A modern formula created on the basis of natural ingredients. The properties of horsetail, which contains silicon and microelements of magnesium, potassium and calcium, harden and strengthen the natural nail plate. In addition, the properties of mastic tree resin give your nails a healthy appearance.

NAIL CARE

Nail Magic
Oil

ODŻYWCA OLIWKA
NOURISHING OIL

MAGIC OIL

THE SPECTACULAR POWER OF REGENERATION

It has never been easier to protect and strengthen your nails. Regular use of Nail Magic Oil gives your nails vitality and beauty, no matter how they are styled: classic, gel, acrylic or any other style. How can one product leave your nails visibly healthier and stronger after just one week of use? The secret lies in its composition. The natural power of valuable ingredients helps where other measures have failed.

30 ml

Pistachio tree resin

intensively strengthens the nail and stimulates keratin synthesis

Avocado oil

nourishes and prevents the loss of moisture from the cuticles

Macadamia oil

rich in Omega 6 oils, protects, soothes and strengthens

Jojoba oil

moisturises and smooths the cuticles

Argan oil

has anti-ageing properties, and is rich in vitamins and antioxidant ingredients

Sweet almond oil

smooths and strengthens the cuticles

FIND THE RIGHT CONDITIONER

VITAMIN BOOSTER

vitamin bomb

An oil-varnish nourishing conditioner ideal for weakened, soft and brittle nails.

Active ingredients:

- Vitamin C: has antibacterial properties and prevents inflammation;
- Vitamin E: protects against free radicals, renews intercellular lipids and strengthens blood vessels;
- Vitamin F: stimulates regeneration and accelerates wound healing;
- Collagen: nourishes, evens and regenerates nails. Use the conditioner only as a clear varnish. It will not work as a base coat for colour polish.

8 ml

RIDGE FILLER

smoothing and preserving

A primer base with acrylic that effectively covers and smooths any unevenness in the nail plate and creates a perfect foundation for colour polish. It contains silicon, acrylic polymers and calcium – compounds that foster reconstruction and strengthening of the nail structure. A great choice for men, it evens out the nail without leaving the surface shiny.

8 ml

SUN BLOCKER

Protects classic stylizations against fading and yellowing under the influence of UV rays.

8 ml

UV TOP COAT

Top coat - in the dark it shines white, in daylight it visually whitens the plate. The nail polish reflects blue and white light rays, which makes the nails look healthy. In the dark, the varnish glows white under the influence of UV light. Recommended for yellowish nails.

8 ml

EXPRESS DRY DROP

Instant drying, shine and protection of classic styling. The oily preparation applied to the varnish layer will effectively speed up the drying process. In addition, it creates a protective barrier against mechanical damage.

30 ml

EXPRESS NAIL CUTICLE REMOVER

A rapid cuticle remover with a fresh lemon scent. An optimal pH allows you to quickly and effectively soften and remove unwanted cuticles. Glycerine provides additional soothing and moisturising properties.

Tip: squeeze the gel from the bottle directly onto the cuticles, wait a few seconds and then use a wooden cuticle pusher to remove them. Wash off the remaining gel with water and soap.

8 ml

MAGIC NAIL BONDER

double-sided nail tape

An acid-free preparation designed for the natural nail plate, recommended for use prior to all kinds of gel styling. Recommended for those who have problems with adhesion and styling durability. The bonder works like “double-sided tape” to increase the adhesion of the product to natural nails.

Tip: degrease the nails thoroughly, apply a thin layer of bonder, wait a few seconds and proceed with the desired styling.

8 ml

MAGIC NAIL PREP

for the preparation of natural nails

Nail Prep prepares natural nails for styling with gel polish, hard gel or acrylic polish and increases adhesion of any styling with natural nails.

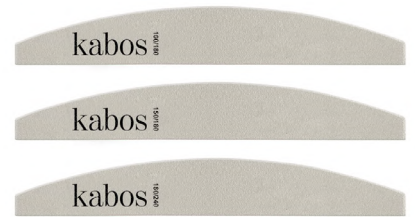

PRODUCT FEATURES:

- a strong degreasing formula,
- increases the adhesion of the natural nail plate with each styling,
- ensures maximum durability of each styling,
- an acid-free formula — does not affect the pH of the natural nail plate,
- removes moisture by drying the nail,
- removes impurities from the natural nail plate,
- minimises the risk of air bubbles and product chipping.

EXPECTATIONS

NAIL POLISH REMOVER

A professional, acetone-free nail polish remover that effectively removes all types of polish. Enriched with evening primrose oil and vitamin F, it nourishes and moisturises nails and cuticles.

• Grapefruit (150 mL)

PURE ACETONE

A professional preparation with a refreshing grapefruit scent that effectively removes tips, acrylic and gel polish, nail art and polish with glitter, and cleans brushes.

Tip: protect cuticle tissue with a gel oil, then apply a lint-free cotton pad soaked in acetone to each nail and wrap them in aluminium foil. After a few minutes, take off the foil and pad and remove any manicure residue with a wooden cuticle pusher.

150 mL, 500 mL

FIRST STEP NAIL CLEANER

A professional preparation for degreasing natural nails and removing impurities and moisture. It increases the adhesion of polish, gel and acrylic to the nail.

Tip: soak a lint-free cotton pad in the liquid and wipe each nail carefully.

150 mL, 500 mL

ISOPROPYL ALCOHOL

A professional preparation for removing the sticky activator used during application of hard gel and soft gel manicures. Made exclusively with isopropyl alcohol, this product ensures perfect shine and prevents dullness during styling. Tip: soak a lint-free cotton pad in the liquid and then wipe the styling after hardening under a UV/LED lamp.

150 mL, 500 mL

HAND AND BODY LOTIONS

What distinguishes Kabos lotions?

We offer two product lines:

- fruity, floral lotions inspired by perfumes; - quickly absorbed without leaving a sticky residue;
- a rich source of active ingredients: Shea butter, honey extract, goat milk proteins; - moisturise and protect the skin from dehydration
